1. Project Update

Folder feature has been finished earlier than the schedule. Next, I will complete the project with recent notes, favorites, and archived features. Recent notes will display 3 most recently updated notes. Favorites is special folder to grouping notes with favorite mark. Archived is special folder to archive notes where notes only be visible in Archived section.

2. Nowted Product Roadmap

After considering my knowledge and experience, I have a planned timeline for the creation of the product as outlined below:

Acticity	Week 1					Week 2				
	1	2	3	4	5	6	7	8	9	10
Backend										
Frontend										
Testing										

Product Roadmap

3. Most VIable Product

1. User is showed 3 recent updated notes
2. User can give favorite mark to certain note
3. User can put in note into a archived section

4. Mockup
